

Acininobili

Varieties

Details

Location of vineyard:
Breganze hills

Exposure and type of land:
volcanic and tuffaceous hills

Vine layout:
painstaking manual selection of stalks with undeveloped Botrytis cinerea (noble rot)

Aging:
for two years in new barriques, in bottles for one year

Residual sugar:
200 g/l

Organoleptic notes

Brilliant deep antique gold

Sweet yet elegant, this wine is full-bodied, elegant and sumptuous. Very long and satisfying finish: an exciting experience

Great, intense and spicy bouquet of honey, dry fruit, raisins and mineral flint

As a pairing we suggest foie gras, but also is a perfect occasion when shared with a loved one in front of the fireplace - the perfect meditation wine
